Issue: October 2021

Thank you

Whether you have already purchased your LVT floor or are researching before taking the plunge, our cleaning and maintenance guide will tell you everything you need to know about taking care of your floor.

By following the guidelines set out in this booklet, you will be making sure your flooring looks as new as the day it was fitted.

After Installation

You have waved goodbye to your floor fitter, but what now? Before you get too excited, we advise following the below instructions to help your floor settle into its new home:

- Ensure your floor is clear of debris and free from any adhesive residue that may have been left.
- Try to allow at least 24 hours for the adhesive to dry. During this period, avoid washing floor and replacing furniture.
- When it is time to move your furniture back in place; **lift, don't drag**.
- Apply felt pads to furniture legs and feet to help protect the floor and for larger items consider castor cups.
- If moving really heavy items back into place (washing machines/ fridge freezers etc) protect the floor with sheets of cardboard or thin pieces of hardboard.

Cleaning for the first time

We recommend using a pH neutral cleaner such as Everyday Clean and following these steps.

Removing coarse dirt

1) Remove coarse dirt using a brush or vacuum cleaner. In case of stubborn dirt or residue, dilute Everyday Clean in a ratio of 1:10 (1 litre to 10 litres of water), reducing the concentration accordingly for slight soiling.

2) Distribute the cleaning solution over the floor and, after allowing to stand for a short time, treat the floor surface using a scrubbing brush.

3) Take up the dirt using a spray extractor fitted with a hard floor adapter or absorbent wide-headed wiper mop and wipe over with clear water to neutralise.

Mopping for the first time

Dilute Everyday Clean in a ratio of 1:200 (50 ml to 10 litres of water) and mop the floor using this solution.

Remove any excess liquid and wait for your floor to dry before walking on it.

Protecting your floor

- Use felt pads on your chair legs to protect your floor.
- Lift furniture rather than dragging to prevent damage to your floor.
- When moving heavy items of furniture or household appliances, protect your floor with sheets of cardboard or thin pieces of hardboard.
- To protect your floor from indentations, you can use castor cups to help distribute weight, just like with carpet.
- Install a non-rubber backed mat at entrances to help stop dirt and grit being brought into the house.
- Maintain room temperature between 13-27°C (55-81°F) for optimum performance.

Cleaning Kits:

Each kit contains the following:

Freshen Up x1

For a gentle and caring clean, every 3-6 months

Everyday Clean x1

A cleaner for regular use

Hand Pad

Useful when applying product and effective for those stubborn spillages

Felt Pads x1

For use on furniture legs to prevent scratching

Freshen Up

Every 3 - 6 months we recommend the use of our Freshen Up cleaner. This enhances your floor to give a matt finish and is also suitable for the quick refreshment of floor types with a PU factory finish due to the special polymer combination.

| Step 1 | Step 2 | Step 3 |
|--|--|--|
| Before applying, clean the floor with Everyday Clean and remove any areas of built up dirt using the white pad provided. | Shake the bottle well and apply undiluted with a polish applicator or a fluff-free mop in a thin, even film. | Allow to dry overnight before walking on the floor and done! Your floor is all fresh. |

*Note: When applying undiluted, avoid strong sunlight and drafts. Underfloor heating: Turn off underfloor heating before cleaning.

Product Information

Freshen Up

Daily Cleaning: Dilute Everyday Clean in a ratio of 1:200 (50ml to 10 litres of water) and mop the floor using this solution.

Note: Sensitive surfaces (such as wood, metal or furnishings) should not be sprayed with cleaning solution.

Data on Ingredients: 5-15% non-ionic surfactants, <5% anionic surfactants, perfumes (LIMONENE), preservation agents (2-BROMO-2-NITROPROPANE-1,3-DIOL, OCTYLISOTHIAZOLINONE, GLUTARAL).

May produce an allergic reaction. Keep locked up and out of the reach of children. Protect from frost. Polyolefin packaging. Only feed into recycling systems when clean and completely empty.

Everyday Cleaning

One of the best things about a LVT floor is how simple it is to keep clean. Muddy paw and foot prints are easily dealt with, as to are spills and drips.

Step 1

With a soft bristled brush, collect up any dirt or dust. If using a vacuum, make sure the rotating head is grit free to prevent scratches.

Step 2

Dilute Everyday Clean with warm water and mop your floor. Make sure to not use too much product as this can make your floor dull.

Step 3

Allow to dry before walking on the floor and voilà!
A squeaky clean floor.

Product Information

Everyday Clean

Daily Cleaning: Add 1 graduation = 50ml Freshen Up to a bucket (8-10 litres) of water.

Data on Ingredients: <5% TETRAMETHYL ACETYLOCTAHYDRONAPHTHALENES, preservation agents (2-BROMO-2-NITROPROPANE-1,3-DIOL, METHYLISOTHIAZOLINONE, BENZISOTHIAZOLINONE, METHYLCHLOROISOTHIAZOLINONE / METHYLISOTHIAZOLINONE), perfumes. Contains reaction mass of: 5-chloro-2-methyl-4 isothiazolin-3-one and 2-methyl-2H-isothiazol-3-one (3:1), 5-chloro-2-methyl-2H-isothiazol-3-one.

May produce an allergic reaction. Keep locked up and out of the reach of children. Protect from frost. Polyolefin packaging. Only feed into recycling systems when clean and completely empty.
